

## Community Care Hub Weekly Partner Update

Monday, September 28, 2026

Hi Partners,

Welcome to this week's Community Care Hub Partner Update! We have several upcoming opportunities, resources, and training reminders to share this week.

### What you need to know this week

- **H.R. 1 Resources & Support**

Changes related to H.R.1 are coming, and BHT has resources available to help partners prepare. The first changes for lawfully present noncitizens begin in October 2026, followed by additional Apple Health changes beginning in January 2027.

A workbook for CBWs, recordings from our September informational webinars, and a scheduling link to connect with the Navigator Team are available on [BHT's H.R. 1 webpage](#). Printed educational materials are also available for partners who would like resources for clients or waiting rooms.

- **H.R. 1 Funding Support Reminder**

BHT is offering additional funding to currently contracted Community Care Hub partners in good standing to support clients through insurance transitions and share educational information. Details about this opportunity have been sent directly to each organization's leadership.

Executive Directors: Please make sure you review and sign your organization's Statement of Work (SOW).

### What BHT needs from you this week

- **ARCH Survey Co-Creation Workshops**

The University of Washington's Center for Anti-Racism and Community Health (ARCH) is developing a survey to better understand CBW perspectives about working with Community Care Hubs. They're looking for CBWs to participate in virtual survey co-creation workshops and help shape the survey. Workshops are planned for the weeks of October 26 and November 2, will be held via Zoom, and will be offered in English and Spanish.

Information about how to participate will be shared as soon as it is available on the [Partner Portal](#).

### Opportunities

- **Funding Opportunity: 2026 Oral Health Impact Grants**

The Arcora Foundation is accepting proposals for its 2026 Oral Health Impact Grants. Eligible Washington organizations may apply for grants of up to \$75,000 to support community-driven efforts that improve oral health.

Funding may support efforts such as improving access to culturally responsive oral health care and promoting healthier food and beverage choices. Please feel free to share this opportunity with others in your organization or network who may be interested.
